

Guide to use T-shirt mock-ups by splasharia

How to add own artwork & logo:

1. Design own Artwork with transparent background (or same colour as the tee's colour)

2. Double-click on thumbinal of 'Your Design' Layer and exchange with the placeholder logo. Save (Ctrl+S/Cmd+S) and return to your main file.

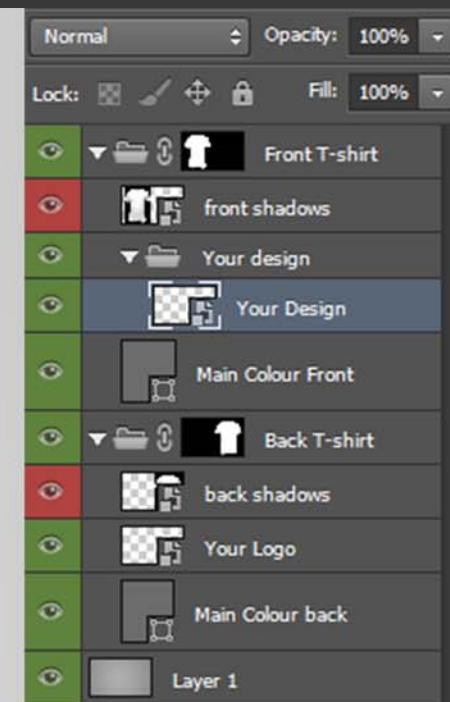

3. The logo should be updated by now.

4. Double-click on thumbinal of 'Your Logo' to change the back side of t-shirt, it can be a logo or a complete design. Just save the file as any type of file you want (.jpg, .png, etc).

Change Tee's colour:

Double-click on 'Main Colour Front' and 'Main Colour Back' Layers to change colours of the Tees.

Layer Colours Legend:

Safe to use - those layers are meant to be changed

Limited changes allowed - unless experienced in PS CS please stick to changes only listed in this Guide

Changes might break the desired effect - unless experienced in PS CS please do not change those layers to prevent any unexpected results

Be careful - Changing Red layers may cause serious issues with this template

**Thank you for purchasing and downloading
my T-shirt mock-ups.**

Don't forget to rate the files and follow :)

ENJOY!!!
